Augur appoints new Managing Director

The Board of diversified minerals explorer Augur Resources Limited (ASX:AUK) is pleased to announce the appointment of Grant Kensington as its new Managing Director.

Augur Resources Chairman Peter Bradfield said Mr Kensington was a key appointment in the ongoing growth of Augur, as it develops its prospective copper, nickel and gold projects in the Lachlan Fold Belt in NSW.

"Mr Kensington brings to Augur considerable senior management experience in the resources industry, both in Australia and internationally, as well as strategic finance and business management leadership," Mr. Bradfield said.

"These skills and experience will be a great fit for Augur Resources," Mr. Bradfield said.

Mr Kensington will commence with the Company on 18th February. Current Managing Director Joshua Rogers will resign from the position at that time, but will remain as an executive director of Augur Resources.

"The Board wishes to thank Mr Rogers for his significant contribution to the development and growth of the Company, including management of the IPO process," Mr Bradfield said.

Mr Kensington's resources experience includes consulting roles with North Limited and Mount Isa Mines. With North Limited he was extensively involved in both the identification and development of projects in Australia, Sweden and the Americas. While at Mount Isa Mines he was involved in mine-site exploration and the development of underground survey techniques and analysis.

His most recent experience was Executive General Manager – Corporate Services with ForestrySA, an organisation with assets of more than \$1 billion, where he helped drive its investment, direction and business improvement decisions.

Mr Kensington holds a Master of Science majoring in Earth Sciences and a MBA. He is also a Graduate Member of the Australian Institute of Company Directors.

The Board welcomes Mr Kensington's appointment and looks forward to working with him in this role.

Augur's projects

About Augur

Augur is a NSW-based resource development company, with a focus on copper, gold and nickel projects within the Lachlan Fold Belt in western NSW. The region is a known producing area, especially for copper, gold and base metals and Augur is seeking to JORC define via an extensive drilling program its key projects with the intention of them moving to the pre-feasibility stage.

The Company has a highly experienced Board and Management team, which includes extensive experience in NSW and porphyry copper-gold exploration.
